PUTTIES

HIGH PERFORMANCE ADHESIVE PUTTIES

PUTTY (STANDARD SETTING)

Product Code
60211
Dispenser of
20 Packs,
each pack 100g

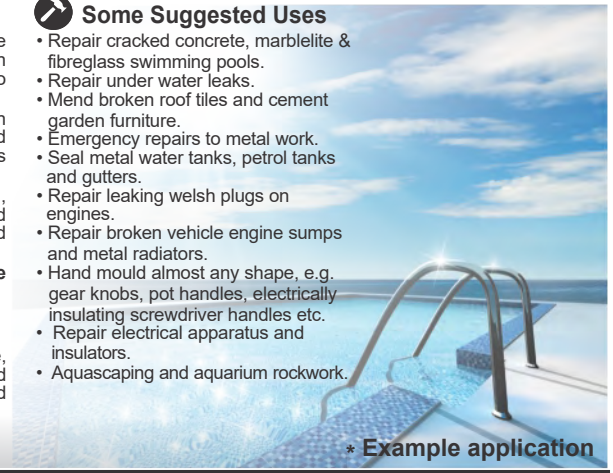

i Product Overview

- Was the first of its kind in the world. The only South African manufactured product to go to the moon!
- **PRATLEY PUTTY** is an epoxy based, hand mouldable putty which sets very hard.
- Can also be used for filling, sealing, building up and bonding almost any rigid material
- **Ideal for underwater use (even sets underwater.)**

Adheres to metal, cement, concrete, stone, glass, slate, wood and most rigid materials. Withstands mild alkalines, oil and petrol.

↗ Some Suggested Uses

- Repair cracked concrete, marbleite & fibreglass swimming pools.
- Repair under water leaks.
- Mend broken roof tiles and cement garden furniture.
- Emergency repairs to metal work.
- Seal metal water tanks, petrol tanks and gutters.
- Repair leaking welsh plugs on engines.
- Repair broken vehicle engine sumps and metal radiators.
- Hand mould almost any shape, e.g. gear knobs, pot handles, electrically insulating screwdriver handles etc.
- Repair electrical apparatus and insulators.
- Aquascaping and aquarium rockwork.

* Example application

QUICKSET[®] PUTTY

Product Code
64135
Dispenser of
20 Packs,
each pack 100g

i Product Overview

- Exceptionally high strength, hand mouldable, putty-like adhesive which sets rock hard.
- **Similar to Pratley Putty except it sets faster.**
- It is incredibly strong and can be used for filling, sealing and shaping.
- Can be sawn, filed, machined & sanded once cured.
- Can be used underwater, but is **not as easy to apply underwater** as Pratley Putty (Standard Setting.)

Adheres to metal, cement, concrete, stone, glass, slate, wood and most rigid materials. Withstands mild alkalines, oil and petrol.

↗ Some Suggested Uses

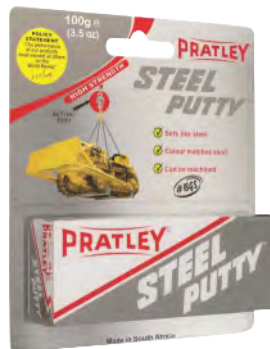

- Mend broken roof tiles and cement garden furniture.
- Emergency repairs to metal work.
- Seal metal water tanks (no water present).
- Seal metal petrol tanks and gutters.
- Repair leaking Welsh plugs on engines.
- Repair broken vehicle engine sumps, gear boxes and metal radiators.
- Hand mould almost any shape, e.g. gear knobs, pot handles, electrically insulating screwdriver handles etc.
- Repair electrical apparatus and insulators.
- Keep a pack in your car for emergency repairs.

* Example application

STEEL PUTTY[®]

Product Code
64136
Dispenser of
20 Packs,
each pack 100g

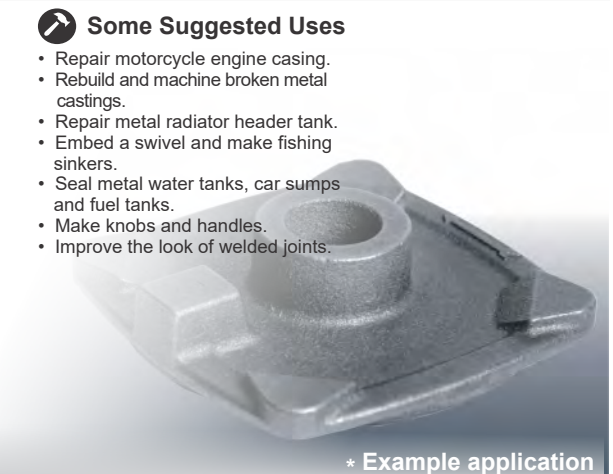

i Product Overview

- This epoxy based adhesive putty cures at a **medium speed.**
- It is hand mouldable, **sets like steel** and matches the **colour of steel.**
- It is exceptionally workable, yet when set it is incredibly strong. It can be sawn, filed, machined, sanded and painted.

Adheres to metal, stone, cement, concrete, slate, glass, wood and most rigid materials. Withstands mild alkalines, oil and petrol.

↗ Some Suggested Uses

- Repair motorcycle engine casing.
- Rebuild and machine broken metal castings.
- Repair metal radiator header tank.
- Embed a swivel and make fishing sinkers.
- Seal metal water tanks, car sumps and fuel tanks.
- Make knobs and handles.
- Improve the look of welded joints.

* Example application

ADHESIVES

HIGH PERFORMANCE DIY ADHESIVES

QUICKSET[®] WHITE

Product Code
65139
Dispenser of
20 Packs,
each pack contains
2 x 18ml tubes

i Product Overview

- Best for heavy duty applications where surfaces are somewhat rough.
- After mixing it is thixotropic and has the consistency of soft butter. It can fill large gaps where repair requires both high adhesive strength and a filler.
- Can be filed, sawn and sanded.
- It sets hard to a glossy white finish. Ideal for fixing ceramic, porcelain and many other colour sensitive repairs.

Adheres to metal, cement, concrete, slate, stone, glass, fibreglass, wood and most rigid materials.

↗ Some Suggested Uses

- Repair chipped ceramic basin, bath or toilet.
- Affix ceramic tiles or ornaments to wall.
- Stick masonry work together.
- Repair electrical insulators.
- Mend cement garden furniture, pots and window boxes.
- Fix handles on pots and pans.
- Repair electrical apparatus and porcelain.

* Example application

QUICKSET[®] CLEAR

Product Code
66143
Dispenser of
20 Packs,
each pack contains
2 x 18ml tubes

i Product Overview

- A very versatile epoxy based adhesive that is high-strength, fast curing and bonds to most rigid materials.
- Can be used in applications where the adhesive should not be visible as it sets clear in thin sections.

Adheres to most rigid materials, such as ceramics, stone, concrete, glass, fibre-glass and metals.

↗ Some Suggested Uses

- Repair broken ornaments.
- Repair glass items.
- Mend model radio control aircraft parts.
- Stick semi-precious stones to jewellery mountings.
- Repair broken wood furniture.
- Repair broken picture frames.
- Repair costume jewellery

* Example application

STEEL QUICKSET[®] EPOXY

Product Code
67005
Dispenser of
20 Packs,
each pack contains
2 x 18ml tubes

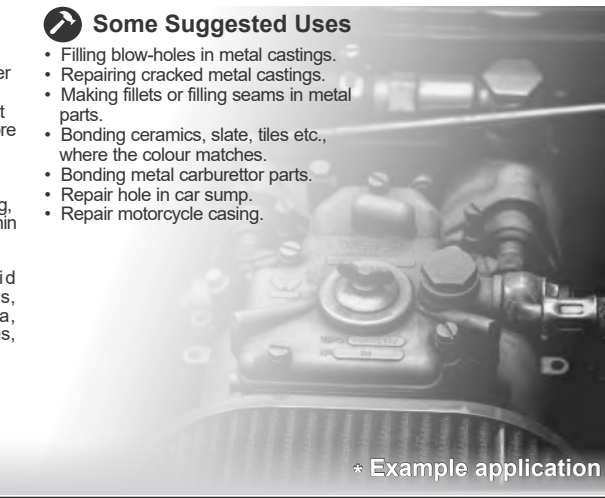

i Product Overview

- A non-conductive, quick-setting, ultra-strong metal filler and bonder.
- It matches the colour of most ferrous metals. It can therefore be used on repairs where colour is important.
- Formulated to set hard and rigid, to facilitate filing, sawing, machining and sanding within 2 hours.

Adheres to most rigid materials such as metals, cement, concrete, china, stoneware, glass, slate, tiles, ceramics and wood.

↗ Some Suggested Uses

- Filling blow-holes in metal castings.
- Repairing cracked metal castings.
- Making fillets or filling seams in metal parts.
- Bonding ceramics, slate, tiles etc., where the colour matches.
- Bonding metal carburettor parts.
- Repair hole in car sump.
- Repair motorcycle casing.

* Example application

WONDA FIX[®]

Product Code
67007
Dispenser of
20 Packs,
each pack contains
2 x tubes to
make 27ml

i Product Overview

- A tough, yet flexible adhesive which is suitable for a multitude of household and outdoor repairs.
- It is a unique epoxy-urethane hybrid which is cream/opaque in colour and is ideal for repairs where flexibility is required.
- It is strong, tough, abrasion and shock-resistant, and cures to a tough rubber-like material.

Adheres to leather, fabrics, canvas, certain plastics, nylon, some rubbers, metal, china, stone, pottery and ceramics, wood, bakelite, fibreglass and upholstery.

↗ Some Suggested Uses

- Repair leather belts.
- Repair and splice leather transmission belts.
- Patch tears or holes in canvas tents or deck chairs.
- Mend worn running shoes.
- Mould and cast new vibration mountings.
- Make new abrasion resistant linings for wearing parts of rock handling machinery.
- Electrical insulating handles.
- Repair rigid and non-rigid ornaments.
- Make non-slip, non-scratch feet for ornaments.
- Cast your own flexible drives or friction drives.
- For extra strong repairs soak into bandage and wrap around broken plastic pipe joint.

* Example application

WONDAFIX[®] auto

Product Code
67004
Dispenser of
20 Packs,
each pack contains
2 x tubes to
make 27ml

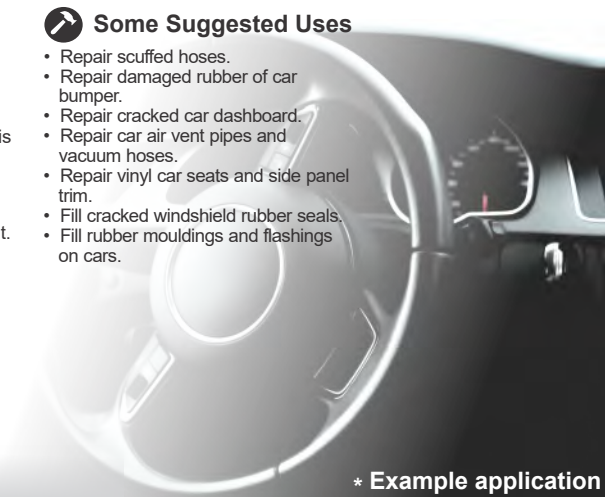

i Product Overview

- Ideal for a multitude of automotive repairs.
- A tough and flexible high strength repair system.
- It is similar to Wondafix but is black in colour and ideal for functional and aesthetic repairs.
- It is strong, tough, abrasion resistant and shock resistant.

Adheres to leather, fabrics, upholstery, certain plastics, some rubber, metals, wood and canvas.

↗ Some Suggested Uses

- Repair scuffed hoses.
- Repair damaged rubber of car bumper.
- Repair cracked car dashboard.
- Repair car air vent pipes and vacuum hoses.
- Repair vinyl car seats and side panel trim.
- Fill cracked windshield rubber seals.
- Fill rubber mouldings and flashings on cars.

* Example application

123[®] QUICKSET[®]

Product Code 62007
Dispenser of 20 Packs, each pack contains a tube of resin and a bottle of activator

i Product Overview

- A fast curing, high strength and shock resistant acrylic adhesive.
- It requires **no mixing**, just **three simple steps**:
 1. Place a blob of resin on one surface.
 2. Dab some activator onto the other surface.
 3. Bring the surfaces together.
- It is excellent on aluminium and will join almost all well matched surfaces.
- It is suited to well matching surfaces only and has **no gap filling capabilities**.

Adheres to rigid plastics, metals, aluminium, ceramics, fibreglass, perspex, nylon, brass and very hard woods.

➤ Some Suggested Uses

- Excellent for bonding rear view mirror to windscreen of car.
- Excellent on aluminium sheet.
- Refix tumble dryer or refrigerator handle.
- Bond stiffener ribs to sheet metal instead of spot welding or riveting.
- Bond fibreglass to metal.
- Mend ceramics.
- Mend broken rigid plastic toys.

* Example application

EZEE BOND[®]

Product Code 62008
Dispenser of 20 Packs, each pack contains 2 tubes to make 20ml

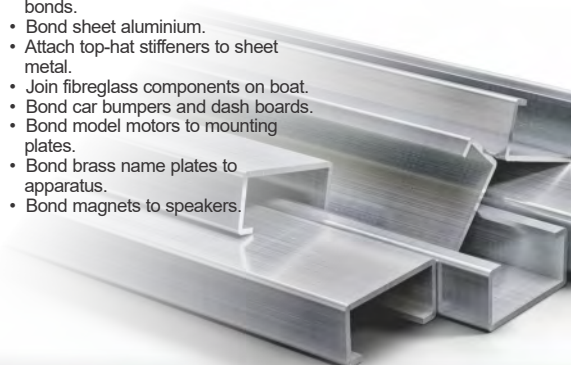

i Product Overview

- A sophisticated ultra high performance 3rd generation, toughened acrylic adhesive.
- It is ideal for bonding reasonably well mating surfaces as a **replacement for spot welds and rivets**.
- It is also exceptional on most rigid plastics, fibreglass and aluminium. Can tolerate mal-proportioning and unlike other acrylics it can tolerate minor gap filling.
- A true 21st century adhesive with rapid cure time.

Adheres to metal, aluminium, fibreglass, brass, rigid plastics and more.

➤ Some Suggested Uses

- Bond rear view mirror to windscreen.
- Bond sheet metal using bead/line bonds.
- Bond sheet aluminium.
- Attach top-hat stiffeners to sheet metal.
- Join fibreglass components on boat.
- Bond car bumpers and dash boards.
- Bond model motors to mounting plates.
- Bond brass name plates to apparatus.
- Bond magnets to speakers.

* Example application

SP001

Product Code 68070
Dispenser of 20 Packs, each pack contains 2 x 18ml tubes

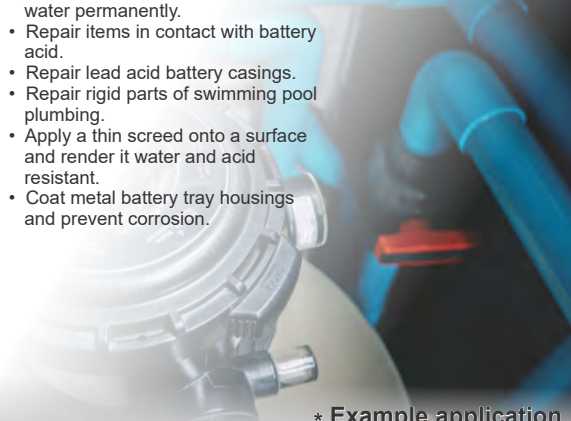

i Product Overview

- A special performance (SP) adhesive that is water and chemical resistant.
- It has exceptional resistance (once cured) to water, diesel, oil, battery acid and paraffin.
- It is ideal for repairing items to be submerged in water.

Adheres to most rigid materials.

➤ Some Suggested Uses

- Repair items to be submerged in water permanently.
- Repair items in contact with battery acid.
- Repair lead acid battery casings.
- Repair rigid parts of swimming pool plumbing.
- Apply a thin screed onto a surface and render it water and acid resistant.
- Coat metal battery tray housings and prevent corrosion.

* Example application

PRATLEY UV BOND

Product Code 98050
Dispenser of 10 Bubble packs, each pack contains a 3g bottle

i Product Overview

- A crystal clear glass adhesive, that cures in direct sunlight.
- This adhesive works best on well-matched and transparent pieces. It does not have gap filling properties.
- UV curing technology offers rapid cure speed and clarity on glass repairs/bonds.
- No pot life issues.

Adheres to glass, can also bond metal to glass.

➤ Some Suggested Uses

- Glass trophies.
- Glass ornaments.
- Glass vases.
- Used to create frameless glass display stands.
- Architectural bonding of glass balconies and staircase models.

* Example application

ADHESIVES

HIGH PERFORMANCE DIY ADHESIVES

PRATLEY
POWDA BOND

Product Code 98020
Dispenser of 10 Packs, each pack contains 1 x Adhesive, 1 x White filling powder, 1 x Black filling powder

i Product Overview

- Powda Bond is an instant repair system and gap filler which can be used either as a two part kit or single adhesive.
- Ultra fast curing adhesive.
- Can be painted, sanded and filed.
- Repair most materials including most plastics.
- High strength.
- Nobody should be without this product!

Adheres to most rigid materials, except Polyethylene, Polypropylene and PTFE plastic substrates.

➤ Some Suggested Uses

- Car bumpers.
- Damaged wheel caps.
- Motor cycle fairings.
- Electrical switches.
- Damaged carburettor.
- Radiators overflow.
- Pool pump valves.

* Example application

SUPERGLUES

HIGH PERFORMANCE DIY ADHESIVES

PRATLEY
Super glue
SINGLE USE

Product Code 98008
Dispenser of 20 Bubble Packs, each pack contains 4 x 1g tube

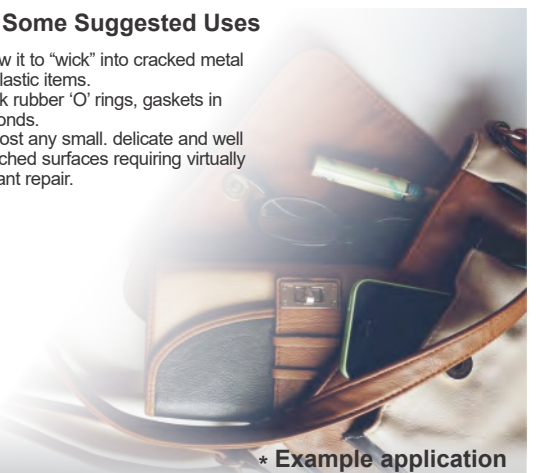

i Product Overview

- Ideal for quick and easy small repairs around the home.
- The convenient single shot tube ensures fresh superglue and no worries about dried up nozzles.
- The sealed tube with pierceable nozzle membrane ensures no leakage and is ideal for carrying around in a handbag for emergency repairs.
- It bonds in a few seconds.

Adheres to most well mated substrates and rubber (except silicone rubber), metal, ceramics, jewellery and most plastics.

➤ Some Suggested Uses

- Allow it to "wick" into cracked metal or plastic items.
- Stick rubber 'O' rings, gaskets in seconds.
- Almost any small, delicate and well matched surfaces requiring virtually instant repair.

* Example application

PRATLEY
SuperGel glue

Product Code 98009
Dispenser of 20 x 3g bubble Packs

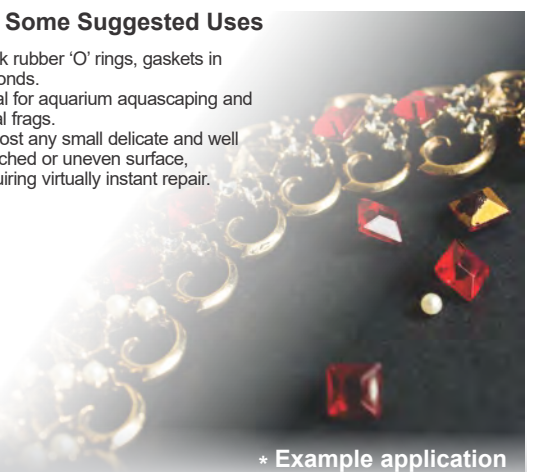

i Product Overview

- This is a fast curing, high performance "Superglue" adhesive gel.
- It has non-drip and gap filling properties that make it ideal for repairs on vertical or uneven surfaces.
- It also performs well on porous substrates due to its "gel-like" consistency.
- It is supplied in leak proof tubes with a diaphragm and self piercing nozzle

Adheres to metal, ceramics, porous substrates, jewellery, rubber (except silicone rubber) and most plastics.

➤ Some Suggested Uses

- Stick rubber 'O' rings, gaskets in seconds.
- Ideal for aquarium aquascaping and coral frags.
- Almost any small delicate and well matched or uneven surface, requiring virtually instant repair.

* Example application

PRATLEY
Super glue 3g

Product Code 98007
Dispenser of 20 Bubble Packs with 3g bottle

Product Code 98007

Product Code 98003
Display dispenser of 20 x 3g bottles

Product Code 98003

i Product Overview

- Supplied with a unique self-piercing long nozzle with safety collar.
- Pratley Superglue is an advanced high performance cyanoacrylate.
- It has excellent adhesion to most well mated substrates and rubber (not silicone rubber) in particular.
- It bonds in a few seconds but takes a few minutes to reach full strength.

Adheres to most well mated substrates and rubber (except silicone rubber), metal, ceramics, jewellery and most plastics.

➤ Some Suggested Uses

- Allow it to "wick" into cracked metal or plastic items.
- Stick rubber 'O' rings, gaskets in seconds.
- Almost any small, delicate and well matched surfaces requiring virtually instant repair.

* Example application

Note: Also available in 20g industrial bottles, see page 8.

WOOD GLUE

HIGH PERFORMANCE DIY ADHESIVES

PRATLEY WOOD GLUE

Product Code 95003
(Dispenser of 20 x 500ml bottles)

i Product Overview

- Specially formulated for ultra high performance on wood.
- Excellent on thin bond gaps.

Adheres to wood, paper, hard-board, carpets, most fabrics and cork tiles.

🔧 Some Suggested Uses

- Repair wooden objects.
- Repair wooden furniture.
- Apply cork tiles to a surface.
- Repair wooden toys.

* Example application

SEALANTS

SEALANTS & SILICONES

PRATLEY GASKET MAKER

Product Code 93512
Dispenser of 20 Bubble Packs with 90ml tube

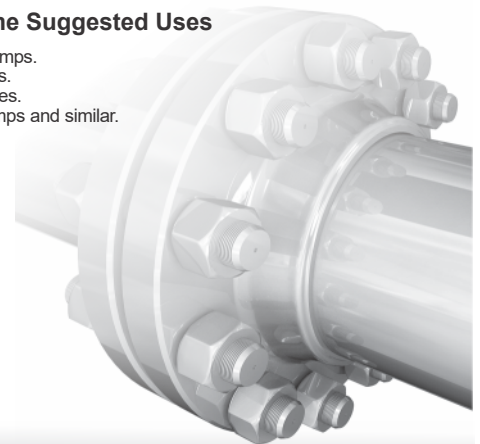

i Product Overview

- This is a high quality neutral curing silicone sealing compound which cures at room temperature forming a tough elastic rubber seal.
- It is temperature resistant from -50°C to +300°C for short periods.
- Chemically resistant to petrol (cannot be continuously immersed), diesel, paraffin, water, oil and anti-freeze.
- It is non-corrosive and has no impact on electrical components (i.e. vehicle sensor safe)
- It has a neutral grey colour.

🔧 Some Suggested Uses

- Engine sumps.
- Gearboxes.
- Pipe flanges.
- Water pumps and similar.

* Example application

PRATLEY Flexiseal

Product Code 93009
Dispenser of 12 x 400g cartridges plus nozzles(white)

Product Code 93002
Dispenser of 20 x 125g hanging tubes

i Product Overview

- An acrylic based sealant specially developed in our laboratories for superior elasticity and adhesion.
- It is **white** in colour.
- It can be washed off with water before it cures. This facilitates the rectification of application errors or messy jobs. It can also be smoothed with a wet finger or putty spatula.
- Permanently waterproof (rain) & resistant to most (mild) chemicals.
- Ultra-violet stabilised.
- **Resistant to mildew and mould.**

Adheres to most materials, not recommended for perspex or plastic tiles.

🔧 Some Suggested Uses

- Repair cracks in house walls, allow to dry and **paint over**.
- Use as a sealant around the bath tub, basin and shower.
- Use as a tile adhesive.
- Use to stick polystyrene insulation to underside of factory I.B.R. roof.
- Tack weld and then seal metal parts with Flexiseal instead of seal welding.
- Seal leaking I.B.R. roof or roof bolts.
- Seal leaking gutters.
- Repair window frames or glazing over existing old window putty.
- Seal joints in prefabricated houses and paint over.
- Seal around electrical wires where they pass through grommet holes.
- Patch up nail holes in walls.

* Example application

PRATLEY Silicone SEALANT

Product Code 93510
Dispenser of 12 x 280ml cartridges

i Product Overview

- This exceptionally high quality (acetoxo curing) clear silicone sealant is specially formulated as a multi-purpose D.I.Y. and industrial silicone.
- Unlike other silicones on the market it has no diluents. It cures by reacting with atmospheric moisture and has exceptional elongation and toughness.
- Once cured it can take temperatures of up to 200°C. Silicones have a limited shelf life of 12 months. This is entirely dependent upon storage temperature and ambient humidity.

Adheres to glazed porcelain, ceramics, glass, many plastics, many rubbers and metal. Not suited to highly porous surfaces.

🔧 Some Suggested Uses

- Use as a sealant around bath tub, basin and shower.
- Seal leaking I.B.R. roof or roof bolts.

* Example application

SEALANTS

SEALANTS & SILICONES

GRIPTACK® ACRYLIC SEALANT

Product Code
28551
Dispenser of
12 x 280ml
Cartridges

i Product Overview

- This is a high-performance, low VOC (Volatile Organic Compounds), flexible sealant.
- It is easy to apply and highly flexible and elastic.
- Suitable for interior and exterior use.
- It is crack resistant, and compatible with most materials.
- It can be painted after 1 hour.
- Low odour, and non-toxic.
- Non slumping.

🔧 Some Suggested Uses

- Seal & hide cracks in walls.
- Fill nail & screw holes.
- Seal gutter joints & roof sheeting.
- Seal door/window frames.
- Embedding, sealing skirtings & cornices.
- Seal basin & baths.
- General caulking.

* Example application

PRATLOK

PRATLOK ANAEROBIC THREADLOCKERS

PRATLOK INDUSTRIAL RANGE 50g

- Product Code 92050
Screw lock - grade 0-6
 - Product Code 92051
Nut lock - grade 6-10
 - Product Code 92052
Stud lock - grade 10-20
 - Product Code 92053
Stud lock - grade 20+
 - Product Code 92054
Grade PEN (Penetrating)
 - Product Code 92055
Grade BRG (Bearing)
 - Product Code 92056
Grade HYD (Hydraulic)
 - Product Code 92057
Grade H temp (High temperature)
- Each in a dispenser of
4 x 50g bottles

Cap Colour	Pratlok Grade	Product code
Blue	Screw Lock Grade 0-6	92050
Red	Nut Lock Grade 6-10	92051
White	Stud Lock Grade 10-20	92052
Yellow	Stud Lock Grade 20+	92053
Green	Pratlok Grade PEN (Penetrating)	92054
Orange	Pratlok Grade BRG (Bearing)	92055
Purple	Pratlok Grade HYD (Hydraulic)	92056
Brown	Pratlok Grade H Temp (High Temperature)	92057

i Product Overview

- Selecting the correct grade for the job is the secret of success and Pratlok makes this very easy.
- For example "Grade 6-10" is for threads in the 6 to 10mm size range and so on.
- Made to international ASTM D5363 and ISO specifications.
- These adhesives are fluorescent in black light to facilitate industrial inspection.
- Both the bottle caps and the adhesives are colour coded (see table above)

Adheres to metals (containing copper or iron) only otherwise Pratlok Activator is needed. (See bottom of page.)

🔧 Some Suggested Uses

- Used to eliminate loosening of fasteners such as screws, bolts, nuts and studs.
- Prevent slip or movement between press-or-slip fitted parts such as shafts, bearings and drives.
- Pratlok also seals the joint and prevents corrosion.

* Example application

PRATLOK DIY 10g

- Grade 6-10
Product Code 92070
Dispenser of 20 bubble packs
- Grade 10-20
Product Code 92081
Dispenser of 20 bubble packs
- Grade "BRG"
Product Code 92084
Dispenser of 20 bubble packs

i Product Overview

- Supplied in 10g bottles for the hobbyist and DIY enthusiast.
- Bottle caps and adhesives are colour coded.
- The grade corresponds to the thread size, e.g. Nutlok 6-10 is for nuts size M6-M10.
- The adhesives are fluorescent in black light to facilitate inspection.
- Made to international ASTM D5363 and ISO specifications.

🔧 Some Suggested Uses

- Used to eliminate loosening of fasteners such as screws, bolts, nuts and studs.
- Prevent slip or movement between press-or-slip-fitted parts such as shafts, bearings and drives.
- Pratlok also seals the joint and prevents corrosion.

* Example application

PRATLOK ACTIVATOR

Product Code
92060
Single 5ml bottle

i Product Overview

- Pratlok activator is for use with Pratlok anaerobic adhesives.
- It will speed the cure of Pratlok (useful at low temperatures and larger bond gaps)
- It must be used to cure Pratlok on plastic threads and less active metal surfaces such as, high alloy steel, cadmium, anodised aluminium and chrome passivated. (see table)

🔧 Some Suggested Uses

ANAEROBIC CURE SPEED VS SURFACE REACTIVITY			
HIGHLY ACTIVE	ACTIVE	POORLY ACTIVE	PASSIVE
Brass, Copper.	Steel, Iron, Aluminium Alloys containing copper (e.g. Aircraft grades), Bronze.	Oxidised surfaces, Anodized aluminium, High alloyed steel, Cadmium finishes, Electroplated & galvanised surfaces, chrome finishes, Cast iron, Passivated metals, Zinc, Stainless steel, Titanium, Magnesium, Nickel.	Ceramics, Glass, Painted finishes, Lacquered finishes, Polymers & plastics.
FAST CURE	MEDIUM SPEED CURE	PRATLOK ACTIVATOR RECOMMENDED	PRATLOK ACTIVATOR REQUIRED

PRATLOK GASKET GRADE

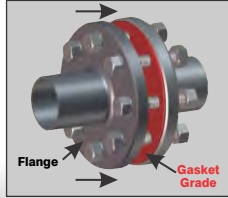

Product Code
92090
Dispenser of
4 x 50ml tubes

i Product Overview

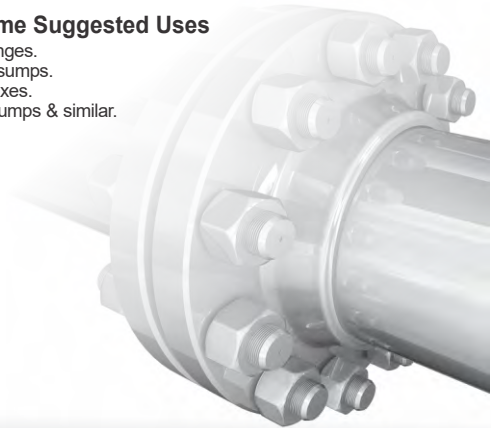

- A rigid curing, seal and gasket maker which is **silicone free**.

Adheres to only metal, ferrous surfaces, otherwise Pratlok Activator is needed. (See previous page.) Not recommended for plastic parts or in oxygen rich environments.

➤ Some Suggested Uses

- Pipe flanges.
- Engine sumps.
- Gear boxes.
- Water pumps & similar.

* Example application

INDUSTRIAL

INDUSTRIAL PRODUCTS

PRATLEY INDUSTRIAL PUTTY

Product Code
WHITE
80205

2kg Dispenser of
10 x 200g pairs
of sticks

Product Code
BLACK
81212

2kg Dispenser of
10 x 200g pairs
of sticks

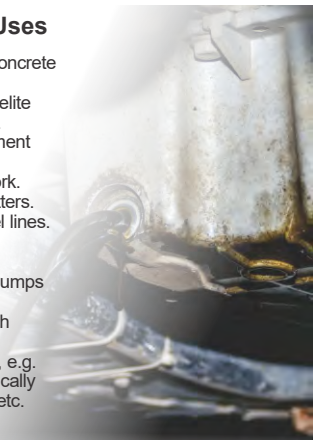

i Product Overview

- The composition of this epoxy based product is identical to Pratley Putty (Standard Setting.)
- The putty stick size and packaging is larger than the DIY version.
- This putty is available in either black or white colours.

Adheres to metals, cement, concrete, stone, glass, slate, wood and most rigid materials. Withstands mild alkalines, oil and petrol.

➤ Some Suggested Uses

- Repair underwater leaks and concrete dam walls.
- Repair cracked concrete, marbleite and fibreglass swimming pools.
- Mend broken roof tiles and cement garden furniture.
- Emergency repairs to metal work.
- Seal metal water tanks and gutters.
- Seal metal petrol tanks and fuel lines.
- Repair leaking welsh plugs on engines.
- Repair broken vehicle engine sumps and radiators.
- Mend chipped and broken wash basins and toilets.
- Hand mould almost any shape, e.g. gear knobs, pot handles, electrically insulating screwdriver handles etc.

* Example application

PRATLEY INDUSTRIAL WHITE ADHESIVE

Product Code
WHITE
82222

Dispenser of
2 x 250ml jars

i Product Overview

- This is a standard (slow setting) version of Pratley Quickset White.
- Best for larger bonding areas, and allows for longer application times.
- It sets to a glossy, white finish.

Adheres to most rigid materials, such as ceramics, stone, concrete, glass, fibreglass and metals.

➤ Some Suggested Uses

- Repair chipped ceramic basin or toilet.
- Affix ceramic tiles or ornaments to wall.
- Stick masonry work together.
- Repair electrical insulators.

* Example application

PRATLEY INDUSTRIAL CLEAR ADHESIVE

Product Code
CLEAR
83229

Dispenser of
2 x 250ml jars

i Product Overview

- This is a standard (slow setting) version of Pratley Quickset Clear.
- Best for larger bonding areas, and allows for longer application times.
- To be used in applications where the adhesive should not be visible.

Adheres to most rigid materials, such as ceramics, stone, concrete, glass, fibreglass and metals, hard woods.

➤ Some Suggested Uses

- Repair broken ornaments.
- Repair glass items.
- Stick model radio control aircraft parts.
- Stick semi-precious stones to jewellery mountings.
- Repair broken wooden furniture.

* Example application

INDUSTRIAL

INDUSTRIAL PRODUCTS

PRATLEY PRATLEYMIX

Product Code
89247
Dispenser of
2 x 250ml Jars

i Product Overview

- A very high strength epoxy based industrial adhesive and repair medium.
- Formulated to set hard yet be tough enough to take impact loads.
- A standard (slow) setting product with a wide range of industrial applications.

↗ Some Suggested Uses

- Mix with sand and use to patch chipped concrete corners or stairs.
- Soak into a bandage or cloth and wrap around broken joints.
- Cover chipped or worn floors.
- Cover metal parts to protect against corrosion.
- Use as an abrasion resistant lining. (Can also be mixed with a wear resisting medium such as corundum or alumina for this application).
- Repair chipped roof tiles.

* Example application

PRATLEY Super glue 20g

Product Code
98004
Dispenser of
20 x 20g bottles

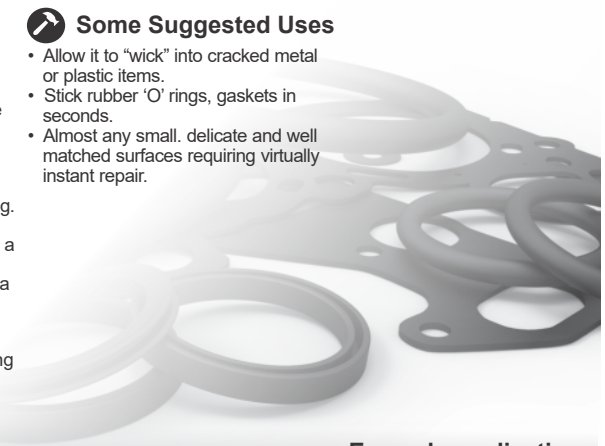

i Product Overview

- A multi purpose high performance cyanoacrylate of the very highest quality with a unique self piercing long nozzle and safety collar.
- Modified to meet the stringest requirements of industry.
- The larger 20 gram bottles facilitate its use in manufacturing.
- The product displays superior adhesive strength and will form a bond in a few seconds.
- Full strength will be reached in a few minutes.

↗ Some Suggested Uses

- Allow it to "wick" into cracked metal or plastic items.
- Stick rubber 'O' rings, gaskets in seconds.
- Almost any small, delicate and well matched surfaces requiring virtually instant repair.

Adheres to most well matching materials excluding silicone.

* Example application

PRATLEY PLASTERGRIP PRIMER

Product Code
98030
5l Bucket

Product Code
98031
10l Bucket

Product code
98030

Product code
98031

i Product Overview

- This product is primarily for the preparation of surfaces prior to plastering or painting.
- It's unique ability to make plaster stick, now makes it possible to plaster smooth steel, smooth concrete, almost anything, even glass!
- It is ideal for use with either Pratliper® ultra lightweight fireproof plaster or conventional plaster.
- Pratley Plaster Grip Primer can also be mixed into concrete (Pratliper® or conventional) to improve the toughness, impermeability and stickiness.
- It can also be very effectively used for sealing surfaces prior to painting, to reduce the amount of paint needed.

↗ Some Suggested Uses

- Bond plaster to smooth wall.
- Seal walls prior to painting & save paint.
- Useful on poor or porous surfaces.
- Ideal for use with Pratliper® ultra lightweight and fireproof plaster. (Contact our sales department for details.)

* Example application

INDUSTRIAL

SPECIAL PERFORMANCE ADHESIVES

PRATLEY SP001

Product Code
83230
Dispenser of
2 x 250ml Jars

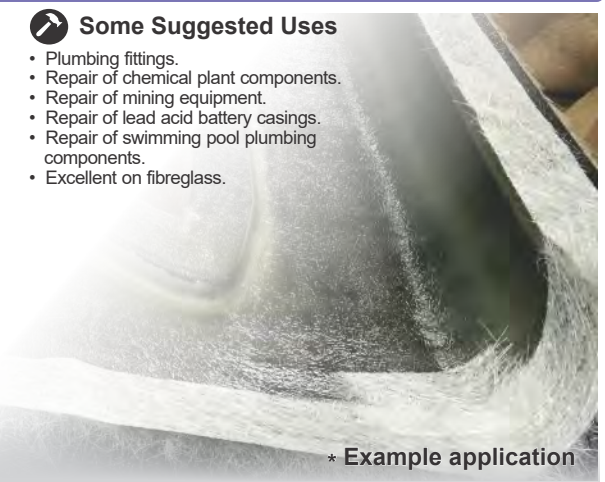

i Product Overview

- A medium curing speed adhesive with Special Performance properties.
- Exceptional resistance to diesel, oil and water.
- Excellent resistance to most chemicals.

↗ Some Suggested Uses

- Plumbing fittings.
- Repair of chemical plant components.
- Repair of mining equipment.
- Repair of lead acid battery casings.
- Repair of swimming pool plumbing components.
- Excellent on fibreglass.

Adheres to most substrates.

* Example application

INDUSTRIAL

SPECIAL PERFORMANCE ADHESIVES

PRATLEY SP020

Product Code 83232
Dispenser of 10 x 50ml packs

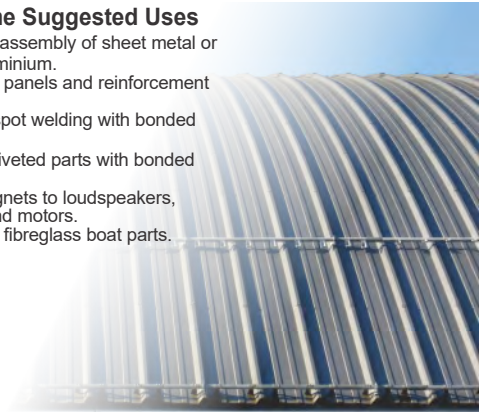

Product Overview

- > A sophisticated acrylic suited to demanding industrial applications with special performance properties.
- > It has high peel strength and is fast curing.
- > It is tough and impact resistant.
- > It applies easily and has malproportioning tolerance.

Adheres to most substrates and bonds to mildly oily surfaces.

Some Suggested Uses

- Precision assembly of sheet metal or sheet aluminium.
- Assemble panels and reinforcement frames.
- Replace spot welding with bonded bead line.
- Replace riveted parts with bonded bead line.
- Bond magnets to loudspeakers, copiers and motors.
- Assemble fibreglass boat parts.

* Example application

PRATLEY SP003 Marine adhesive

Product Code 83233
Pack of 2 x 250ml tubes

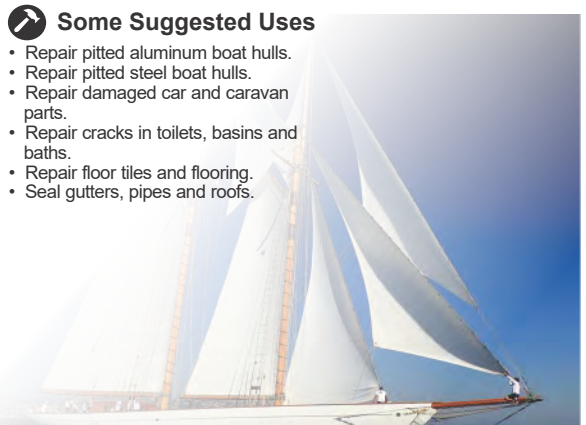

Product Overview

- > A specially formulated epoxy for marine use including salt water.
- > A medium to slow setting adhesive.
- > Can be painted over with marine paint.
- > A must have for boat repair centres and workshops.

Some Suggested Uses

- Repair pitted aluminum boat hulls.
- Repair pitted steel boat hulls.
- Repair damaged car and caravan parts.
- Repair cracks in toilets, basins and baths.
- Repair floor tiles and flooring.
- Seal gutters, pipes and roofs.

* Example application

TAPES

TAPES & FASTENERS

RUBBER TAPE

Product Code 61005
Dispenser of 20 x 1.6m packs

Product Overview

- > Pratley Rubber Tape is "self-fusing."
- > It fuses (amalgamates) to itself once wrapped and has 1001 uses.
- > The self fusing property prevents it from coming loose and renders it useful for fixing **low pressure** leaking pipes, making handle grips and the like.
- > It is also a high voltage electrical insulator.

Some Suggested Uses

- Repair low pressure water pipe leaks.
- Repair hoses and pipes on cars (not exhaust pipes).
- Seal cables and insulate wires.
- Seal coolant pipes.
- Make a neat grip on sports equipment.
- Grips for racquet (sports) handles.
- Bind rope ends so they don't unravel.
- Separate mechanical parts that rattle or chafe.
- Insulate spark plug leads.

* Example application

PRATLEY PVC ELECTRICAL TAPE

Product Codes:
28500 BLACK
28501 RED
28502 BLUE
28503 WHITE
28504 YELLOW
28505 GREEN

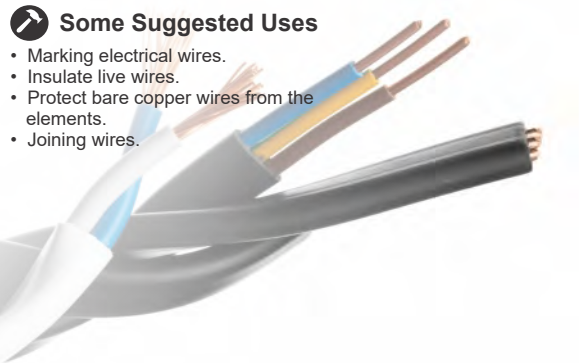

Product Overview

- > Easy to use and durable.
- > High elasticity.
- > Good peel and tensile strengths.
- > Weather resistant.
- > Dielectric strength of 10kV.
- > Suitable for use over a wide temperature range.
- > Suitable for insulating, connecting, splicing and identifying cord and cable cores.
- > Packed in useful re-usable containers.
- > Available in various colours.

Some Suggested Uses

- Marking electrical wires.
- Insulate live wires.
- Protect bare copper wires from the elements.
- Joining wires.

* Example application

Each supplied in dispensers of 20 rolls x 20m

TAPES

TAPES & FASTENERS

PRATLEY stik'n clip

3mm Product Code 94010

Dispenser of 20 x 5 unit packs

6mm Product Code 94002

Dispenser of 20 x 5 unit packs

8mm Product Code 94004

Dispenser of 20 x 5 unit packs

3mm Product code 94010

6mm Product code 94002

8mm Product code 94004

Product Overview

- Simply stick the clips onto a surface and then clip in household cables, cords and wires to render your home, workshop or office tidy and safe.
- Pratley Stik 'n Clip is also extremely useful for mounting pens, pencils and tools in handy places.

Adheres to most surfaces

Some Suggested Uses

- Mount household cables.
- Loose hanging cords.
- Mounting pencils and pens in an easy place to reach.
- Small workshop tools like screw drivers.

* Example application

GRIP TACK MOUNTING TAPE DOUBLE SIDED

Product Code 28550

Dispenser of 20 x Bubble Packs, each pack contains 1.5m tape

Product Overview

- This is a double-sided mounting tape that is ideal for bonding, mounting and holding objects in place.
- It replaces screws, nails and mechanical fasteners for a quick and effective mounting solution.
- It provides an insulating seal and offers vibration control.

Adheres to most surfaces, except Polypropylene, Polyethylene plastics, Teflon & wall paper.

Some Suggested Uses

- Mount mirrors onto walls or cupboard doors.
- Mount picture frames onto walls.
- Bond paper or laminated posters onto walls.
- Bond insulation onto house walls.
- Mount bathroom towel hooks etc onto tiles.
- Secure rugs and carpets so they don't move.
- Attach automotive interior/exterior trim and emblems.
- Mount electrical items such as: Junction boxes, multiplugs, adaptors, charging stations, etc.

* Example application

FROGZEGGZ

HAND MOULDABLE PRODUCTS

FROGZ EGGZ

Product Code 66116

Dispenser of 20 x 50g pack

Product Overview

- This is a single part, rigid setting, hand mouldable plastic that is non-toxic and easy to use.
- You simply place it in hot water to soften.
- It is ideal for modifications or quick repairs and can be reused.
- Once set, FrogzEggz plastic can be cut, sawn, drilled, coloured or painted.
- FrogzEggz is Biodegradable & Environmentally friendly.

Some Suggested Uses

- Handles/grips for tools or keys.
- Stage or party props.
- Door handles or knobs.
- Hose fittings.
- Basin plugs.
- Cell phone bases/charging stations.
- Almost anything!

* Example application

PRATLEY GLOW-POWDER

Product Code 96117

Dispenser of 10 Packs, each pack contains 1 x 8g bottle

Product Overview

- This is a powder that can be added to FrogzEggz hand mouldable plastic as well as various other Pratley products to produce items that glow in the dark.
- Pratley Glow-Powder works well with most of Pratley's clear products, such as Quickset Clear, SP001, Silicone and PratiGlo.
- You can also get excellent results mixing it with Pratley Powda Bond (white powder). (See page 4)

Some Suggested Uses

- Glow in the dark handles/grips for tools or keys.
- Stage or party props.
- Light switch or plug enhancers that glow.
- House numbers that can be seen at night.
- Glow stars for ceilings in childrens bedrooms.
- Cell phone bases/charging stations.
- Almost anything!

* Example application

KRAFTEX PRATLIGLO

Product Code 96102
Dispenser of 4 x 200ml units

Product Overview

- > Kraftex Pratliglo is a self-leveling, pour-on coating for trays, table tops, plaques, decoupage, clocks and figurines.
- > It sets to a high build ultra-gloss finish which is absolutely breathtaking.
- > This non-shrinking, impact resistant coating is also cigarette-burn and alcohol resistant.
- > Heavy metal free.

Some Suggested Uses

- Tabletops.
- Plaques.
- Clocks.
- Figurines.
- Coasters.
- Serving trays.
- Diamond dot projects.
- Bar counters.
- And many more.

* Example application

KRAFTEX decopodge SEALANT

Product Code 96104
Dispenser of 4 x 250ml Jars

Product Code 96115
1 x 1litre

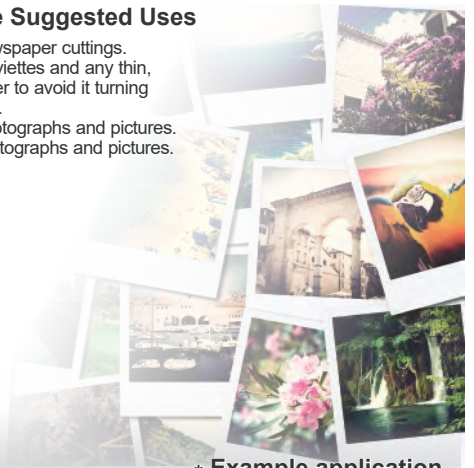

Product Overview

- > 'Kraftex' Decopodge Sealant is a 'podge' product especially useful for sealing newspaper cuttings, porous substrates, decoupage, photographs and the like.
- > Sealing prevents bubble formation and it prevents newspaper cuttings from becoming transparent after pouring 'Kraftex' Pratliglo highgloss coating.
- > 'Kraftex' Decopodge Sealant is also a useful adhesive for sticking down photographs and cuttings prior to sealing and coating.
- > 'Kraftex' Decopodge Sealant is water based.

Some Suggested Uses

- Sealing newspaper cuttings.
- Sealing serviettes and any thin, porous paper to avoid it turning transparent.
- Sticking photographs and pictures.
- Sealing photographs and pictures.

* Example application

KRAFTEX VARNISH

Product Code 96113
Dispenser of 4 x 250ml jars

Product Overview

- > 'Kraftex' Varnish is a mineral-based, multi-purpose varnish.
- > It will bring out the rich grain and lustre of quality wood.
- > It may be used to coat the sides of any decoupage project - to produce a glossy finish.

Some Suggested Uses

- Wooden tabletops.
- Coasters.
- Serving trays.
- Any decoupage project with a wooden surface.

* Example application

KRAFTEX Seal COAT

Product Code 96114
Dispenser of 4 x 100ml bottles

Product Overview

- > 'Kraftex' Seal Coat is a quick-drying, mineral-based transparent sealant/varnish which is easy to apply and virtually odourless.
- > It is intended for use on decoupage and other general craft projects - especially for the coating of difficult objects such as ostrich eggs.
- > It is also ideal for use in conjunction with 'Kraftex' Creative Cracks.

Some Suggested Uses

- Sealing Ostrich eggs.
- Sealing Diamond dot projects.
- Sealing Decoupage projects.
- Ideal for use with Kraftex Creative Cracks.
- Sealing any difficultly shaped objects.

* Example application

KRAFTEX CREATIVE CRACKS

Product Code
96109
Dispenser of
4 x 250ml Jars

i Product Overview

> 'Kraftex' Creative Cracks will enable you to effortlessly and quickly create a unique decorative 'crack effect' on a variety of painted craft, hobby, and artistic objects, even large surfaces like doors and walls.

➤ Some Suggested Uses

- Painted crafts.
- Hobby and artistic objects.
- Even large surfaces like doors and walls.
- Bar counters.
- Book shelves

* Example application

KRAFTEX FROGZ EGGZ

Product Code
93511
Dispenser of
4 x 200g Jars

i Product Overview

- > 'Kraftex' FrogzEggz is a single part, rigid setting, hand mouldable plastic that is non-toxic and easy to use. (Simply place in hot water to soften.)
- > It is ideal for modifications, quick repairs, or creations and can be reused.
- > Once set, FrogzEggz plastic can be cut, sawn, drilled, coloured or painted.
- > Biodegradable and environmentally friendly.

➤ Some Suggested Uses

- Make horns and teeth for Halloween props.
- Make buttons, rings, earrings, beads and other jewellery.
- Mix with Pratley 'Glow-Powder' and make glow stars.
- Decorative flowers for clips and cake toppers.
- Sealing any difficultly shaped objects.
- Stage props.
- Shoe decorations and belt buckles.
- Masks and Elf ears.
- Artistic house numbers.

* Example application

PRATLEY Safety Cleaner

Product Code
92062
Dispenser of
12 x 200g aerosol cans

i Product Overview

- > A non-flammable cleaner for switches, relay contacts, commutators, condensers, rheostat wipers and precision mechanical parts.
- > It also cleans oily parts prior to Pratlok bonding.
- > Leaves no residue or film.
- > Cleans substrates prior to adhesive bonding.

➤ Some Suggested Uses

- Clean substrates before adhesive bonding.
- Switches
- Relay contacts
- Commutators
- Condensers
- Rheostat wipers
- Precision mechanical parts

* Example application

DISCOUNT & TERMS

RETURNS: We cannot accept goods returned without our prior consent and unless such goods are as new and in current production. A handling and inspection charge of 30% minimum will be raised on the invoice price, at our discretion.

SHIPPING: Standard delivery is free of charge for orders totalling R2000 (Excl. VAT) or more and delivered to major South African metropolitan areas. Alternatively, a standard delivery fee will be quoted and charged. Any orders with special freight requirements such as expedited courier or delivery outside of South African borders will be subject to quotation and entirely for the customer's account.

STOCKS: Items listed in this catalogue are normally available ex stock.

CATALOGUE NUMBER: The numbers quoted in this catalogue are computer code numbers and may be used for ordering without requiring any further details.

DESPATCHES: We try to ensure that orders received by noon are despatched the following day. Road transport covering the Gauteng area collects from us each day and delivers to addresses within the following 2-3 days. Our Despatch Department is open from 08:00 to 16:30 Mondays to Thursdays and from 08:00 to 16:20 on Fridays. It is closed on all public holidays.

SETTLEMENT DISCOUNT: We offer 5% settlement discount for accounts paid before the end of the calendar month following the month of the invoice date.

* Please note that unutilised settlement discount will expire after 12 months.
